COUNTY FINANCIAL POLICIES

SPARTANBURG COUNTY, SOUTH CAROLINA
FY 2009/10 ADOPTED OPERATING BUDGET

SPARTANBURG COUNTY, SOUTH CAROLINA FINANCIAL POLICIES

PURPOSE

Primary among the responsibilities of the government of Spartanburg County to its citizens is the care of public funds and wise management of county finances while providing for the adequate funding of the services desired by the public and the maintenance of public facilities. These financial management policies, designed to ensure the fiscal stability of the government of Spartanburg County, South Carolina, shall guide the development and administration of the annual operating and capital budgets. These financial policies address revenues, cash management, expenditures, debt management, risk management, capital needs, and budgeting and management.

OBJECTIVES

- To protect the policy-making ability of County Council by ensuring that important policy decisions are not controlled by financial problems or emergencies.
- To enhance the policy-making ability of County Council by providing accurate information on program costs.
- To assist sound management of County government by providing accurate and timely information on financial condition.
- To provide sound principles to guide the important decisions of the County Council and of management which have significant fiscal impact.
- To set forth operational principles which minimize the cost of government, to the extent consistent with services desired by the public, and which minimize financial risk.
- To employ policies which prevent undue or unbalanced reliance on certain revenues, which distribute the costs of county government services as fairly as possible, and which provide adequate funds to operate desired programs.
- To provide essential public facilities and prevent deterioration of the County's public facilities and its capital plant.
- To protect and enhance the County's credit rating and prevent default on any debts.
- To insure the legal use of all County funds through a good system of financial security and internal controls.

ACHIEVING THESE OBJECTIVES

To achieve and maintain the aforementioned objectives, the Division of Management and Budget, at the direction of the County Administrator's Office, working with the County Council, will conduct an annual analysis of projected financial condition and key financial indicators. It is the focus of this analysis to:

- Identify the areas where the County is already reasonably strong in terms of protecting its financial condition;
- Identify existing or emerging problems in revenue sources, management practices, infrastructures conditions, and future funding needs;
- Forecast expenditure and revenue for the next 5 years, taking care to consider such external factors as state and federal actions, the bond market, and management options being explored and used by other local governments, as well as internal management actions taken during the last budget cycle and being examined for application.

REVENUE POLICIES

Statements dealing with taxes and the means whereby the County raises revenue to fund operations.

Revenue Policy #1: Fund Balance

To maintain an 'AA' County credit rating and meet seasonal cash flow shortfalls, the budget shall provide for an anticipated undesignated fund balance between 10% and 15% for general government and enterprise fund types, of estimated annual revenues. The fund balance shall be exclusive of all reserves not anticipated to be readily available for use in emergencies and contingencies.

- Should the fund balance fall below 10% of expenditures, the County Administrator shall prepare and submit a plan for expenditure reductions and/or revenue increases to the County Council via the Finance Committee.
- In the event the fund balance is above 15%, the difference may be used to fund the following activities:
 - one-time capital expenditures which do not increase ongoing County costs;
 - other one-time costs; and
 - ongoing or new County programs, provided such action is considered in the context of council approved multi-year projections of revenue and expenditures.
- Generally, the fund balance levels are dictated by:
 - cash flow requirements to support operating expenses;
 - relative rate stability from year to year for enterprise funds;
 - susceptibility to emergency or unanticipated expenditure;
 - credit worthiness and capacity to support debt service requirements;
 - legal or regulatory requirements affecting revenues, disbursements, and fund balances; and
 - reliability of outside revenues.
- If, at the end of a fiscal year, the fund balance falls below 10%, then the County shall rebuild the balance within one year.

Revenue Policy #2: Contingency

- To help maintain services during short periods or economic decline and meet emergency conditions, in addition to the Fund Balance, the budget shall provide for a contingency. All general government and enterprise fund types shall maintain a contingency. The contingency shall also be exclusive of all reserves not anticipated to be readily available for use in emergencies. The contingency is established to provide for nonrecurring unanticipated expenditures, or to meet small increases in service delivery costs. The contingency reserve will be built by using 10% of the annual increase in unreserved, undesignated funds.
- Contingencies should be utilized to avoid large tax rate increases from one year to the next. Where correction of a fund balance deficit causes the contingency to fall, a gradual correction of the problem over a two-year period is preferable to a one-time jump in tax rates.

Revenue Policy #3: Sources of Revenue

- The County will strive to maintain a diversified and stable revenue system to shelter the government from short-run fluctuations in any one-revenue source and ensure its ability to provide ongoing service.
- Restricted revenue shall only be used for the purpose intended and in a fiscally responsible manner. Programs and services funded by restricted revenue will be clearly designated as such.
- A balance will be sought in the revenue structure between the proportions of fluctuating and stable revenues. All sources of revenue authorized by the South Carolina Code of Laws may be sought to achieve the desirable balance.
- Revenues sources will be examined during the annual budget process. A five (5) year proforma shall be developed to ensure that projected future revenues meet projected future expenditures.

Policy #6: Grants/Intergovernmental Funds

- The County shall aggressively pursue all grant opportunities; however, before accepting grants, the County will consider the current and future implications of both accepting and rejecting the monies. Future funding obligations as required by grant requirements must be decided at grant acceptance. The County shall seek grants and other funding opportunities which provide maximum leverage of tax supported monies. Further, the County shall seek to minimize grant funded commitments requiring recurring fiscal expenditures.

Revenue Policy #7: Gifts, Donations and Bequests

- Prior to acceptance, all gifts, donations and/or bequests given to the County for the use of any of its departments or divisions will be evaluated by the appropriate parties to determine what, if any, obligations are to be placed upon the County. Gifts and bequests will be considered as "over and above" basic County appropriations.
